

Date: _____

Dear Parent/Guardian of _____,

Your child has displayed a symptom/symptoms which is/are consistent with Covid-19:

Your child presented with the following symptoms:

- A fever (38 degrees or over)
 - A cough
 - Breathing difficulties
 - Loss of sense of smell/taste
-

What you need to do now is:

1. You must now **contact your GP by phone** and advise the GP that your daughter has been sent home from school as she is displaying symptoms of Covid-19.
2. Your daughter's siblings (if applicable) can remain in school.
3. Your GP will assess whether the symptoms she is displaying are consistent with Covid-19.
4. If your GP makes another diagnosis (e.g. throat infection), your daughter must stay at home until 48 hours without symptoms.
5. If your GP assesses the symptoms to be consistent with Covid-19 **your daughter becomes a suspected Covid-19 case and siblings must be withdrawn from the school.**
6. Your daughter and her siblings **must remain at home until you receive the results of the Covid-19 test.**
7. Where no evidence of Covid-19 is detected by the test, your daughter can return to school **if** she is feeling well **and** 48 hours without symptoms.
8. All parents should record a reason for their daughter's absence on Aladdin Connect.
9. Siblings, who are well, can return to school immediately following the receipt of a "not detected" result.
10. Where a test confirms Covid-19, the Medical Officer of Health will liaise directly with the school and will undertake a Public Health Risk Assessment to inform further actions and recommendations.
11. The school will not inform the wider school population where a case of Covid 19 has been confirmed. Contacts of a confirmed case will be contacted by the HSE.

3. Your GP will assess whether the symptoms she is displaying are consistent with Covid-19.
4. If your GP makes another diagnosis (e.g. throat infection), your daughter must stay at home until 48 hours without symptoms.
5. If your GP assesses the symptoms to be consistent with Covid-19 **your daughter becomes a suspected Covid-19 case and siblings must be withdrawn from the school.**
6. Your daughter and her siblings **must remain at home until you receive the results of the Covid-19 test.**
7. Where no evidence of Covid-19 is detected by the test, your daughter can return to school **if** she is feeling well **and** 48 hours without symptoms.
8. All parents should record a reason for their daughter's absence on Aladdin Connect.
9. Siblings, who are well, can return to school immediately following the receipt of a "not detected" result.
10. Where a test confirms Covid-19, the Medical Officer of Health will liaise directly with the school and will undertake a Public Health Risk Assessment to inform further actions and recommendations.
11. The school will not inform the wider school population where a case of Covid 19 has been confirmed. Contacts of a confirmed case will be contacted by the HSE.

Date: _____

Dear Parent/Guardian of _____,

Your child has displayed a symptom/symptoms which is/are consistent with Covid-19:

Your child presented with the following symptoms:

- A fever (38 degrees or over)
 - A cough
 - Breathing difficulties
 - Loss of sense of smell/taste
-

What you need to do now is:

1. You must now **contact your GP by phone** and advise the GP that your daughter has been sent home from school as she is displaying symptoms of Covid-19.
2. Your daughter's siblings (if applicable) can remain in school.
3. Your GP will assess whether the symptoms she is displaying are consistent with Covid-19.
4. If your GP makes another diagnosis (e.g. throat infection), your daughter must stay at home until 48 hours without symptoms.
5. If your GP assesses the symptoms to be consistent with Covid-19 **your daughter becomes a suspected Covid-19 case and siblings must be withdrawn from the school.**
6. Your daughter and her siblings **must remain at home until you receive the results of the Covid-19 test.**
7. Where no evidence of Covid-19 is detected by the test, your daughter can return to school **if** she is feeling well **and** 48 hours without symptoms.
